IN A NUTSHELL

If you already have a podcast I can take over from your previous producer (is that you?) Just “hand over the keys” and I’ll make it happen.

If you are just launching yours, I charge an hourly rate (\$50), starting at consultation then once you’re launched and we have released two episodes, we can set a flat rate per episode or per month. *

Or for \$250, I will launch your trailer (under 2 minutes) which includes getting your hosting set up, trailer edited, mastered and graphics done. The show will be uploaded and distributed to all main podcast platforms.

*Hosting is an additional fee per month. Around \$10/mo if you use my hosting company, Red Circle.
